With reference to claims 6-10, & 11, the prior art of record does not disclose or clearly suggest a device with computer means for performing an averaging measured value acquisition which excludes the frequency ranges of a technical line, in combination with the remaining limitations in the claims.

With reference to claim 12, the prior art of record does not disclose or clearly suggest a process for measuring and assessing the mutual alignment of bodies comprising the steps of manually holding a measurement probe having an optical gyro enclosed within a housing, inputting a command by an operator to the measurement probe by speech input while the measurement probe is being manually held by the operator, in combination with the remaining limitations in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
